Design

Design ao seu alcance

Design at your fingertips

A nossa equipa de Concepção e Desenvolvimento concentra os seus esforços na obtenção das melhores funcionalidades, máxima qualidade e procura antecipar as expectativas dos nossos clientes, assegurando a sustentabilidade dos produtos ao longo do seu ciclo de vida. Temos o nosso próprio gabinete 3D de Desenho e Modelagem e um parque de máquinas moderno para ajudar constantemente os clientes nos seus projetos e criação dos nossos próprios produtos.

Aliamos a tradição à inovação, ao design e à melhoria contínua do processo produtivo para satisfazer as necessidades dos nossos parceiros e clientes, preservamos as relações duradouras desde a fundação da empresa.

Our Development Design team focuses their efforts on obtaining the best functionalities, maximum quality and seeks to anticipate the expectations of our customers ensuring the sustainability of the products throughout their life cycle. We have our own 3D Design and Modeling office and a modern machine park to constantly assist customers with their designs and create our own products.

We combine tradition with innovation, design and continuous improvement of the production process to meet the needs of our partners and customers, preserving longlasting relationships since the founding of the company.

Produção

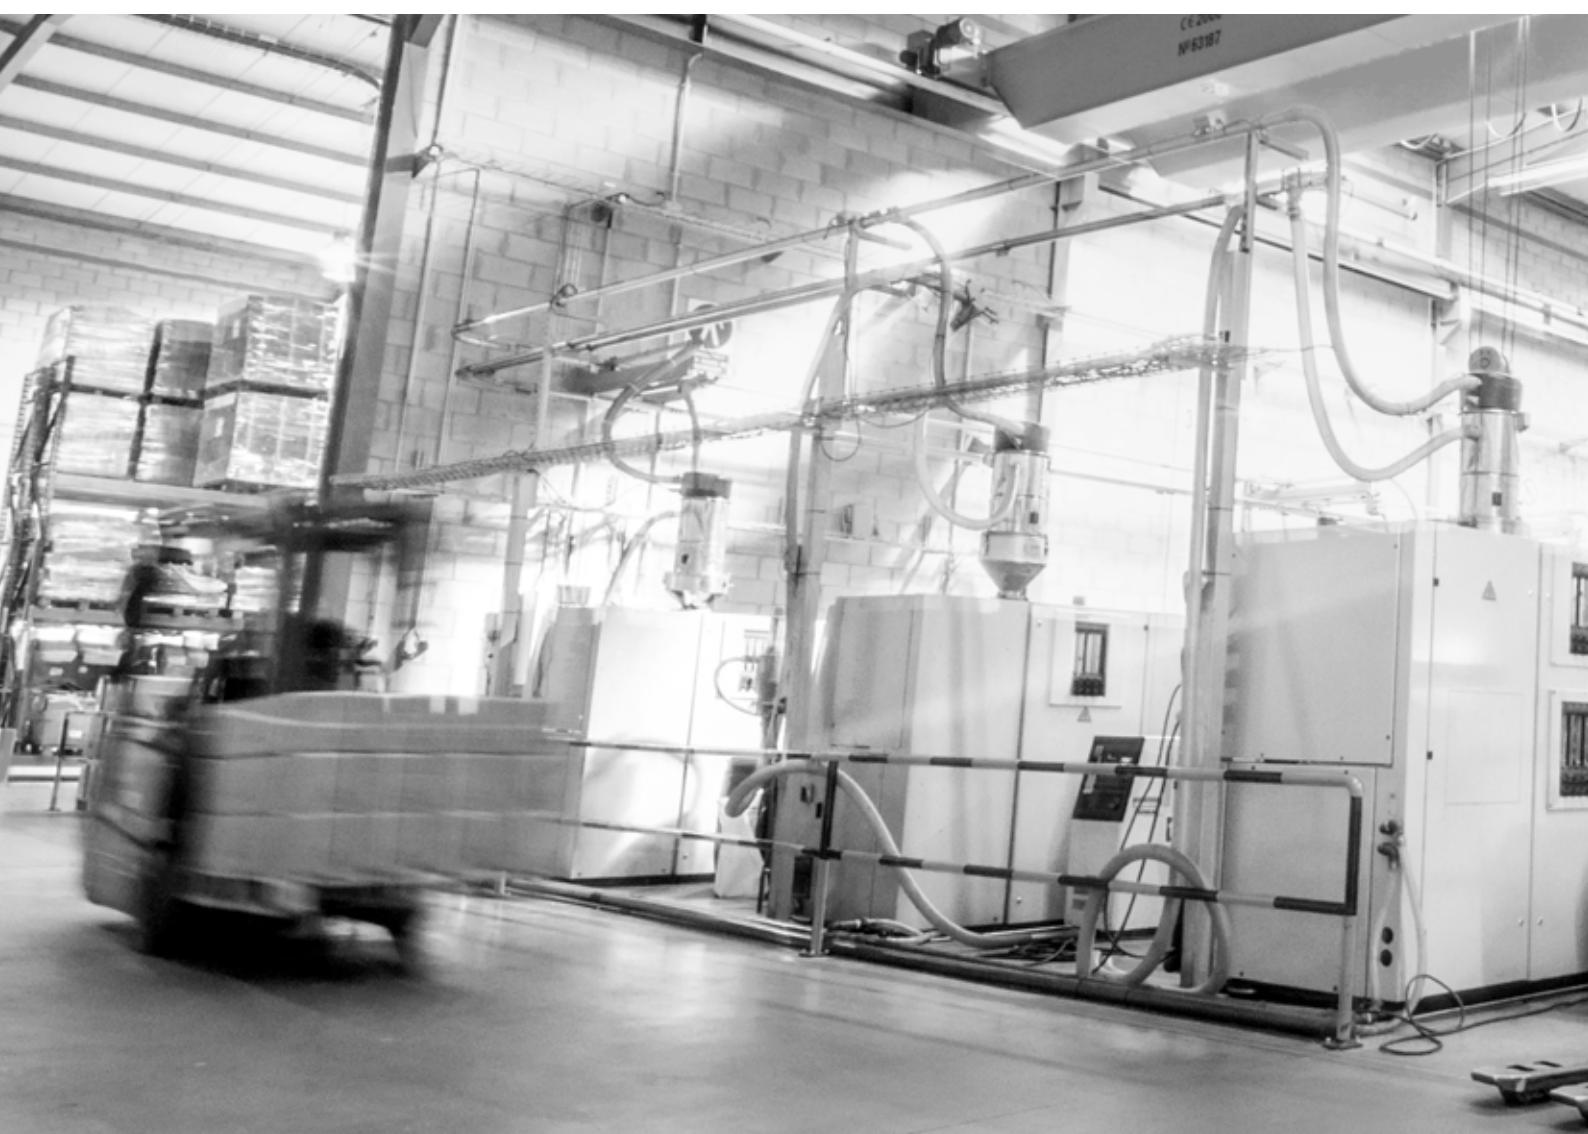

Production

Dispomos de uma grande variedade de máquinas, com capacidade até mil e trezentas toneladas, automáticas e robotizadas, que permitem produzir em larga escala e reduzir ao mínimo o impacto ambiental da nossa atividade.

Escolhemos com rigor e critério as matérias-primas e os materiais com que trabalhamos, garantindo a fiabilidade dos nossos produtos, a resistência, a durabilidade e a reutilização.

We have a wide variety of machines, with capacity up to one thousand and three hundred tons, automatic and robotized, that allow large-scale production and minimize the environmental impact of our activity.

We rigorously choose the raw materials and materials with which we work guaranteeing the reliability of our products in contact with food, its resistance, durability and reuse because they are one hundred percent recyclable.

Para uma sociedade mais justa

Towards a Just Society

Enquanto empresa global, preocupamo-nos com o desenvolvimento sustentável. Estamos comprometidos com uma gestão e ação empresarial que contribuam para uma sociedade mais justa e um ambiente mais saudável.

A certificação pelas normas ISO 9001:2015 e ISO 14001:2015, SA 8000:2014 e OSHAS 18001:2007/NP 4397:2008 conferem-nos a excelência na organização interna, processos de produção e qualidade do produto final.

As a global company, we are concerned with sustainable development. We are committed to business management and action that contribute to a fairer society and a healthier environment. Certification by ISO 9001: 2015 and ISO 14001: 2015, SA 8000: 2014 and OSHAS 18001: 2007 / NP 4397: 2008 standards give us the excellence in internal organization, production processes and quality of the final product.

Earth - Friendly

Sistema de energia solar

Apostamos na qualidade e eficiência energética que nos conferem um fator diferenciador e amigo do ambiente. Um quinto da energia que consumimos tem origem em energia fotovoltaica, produzida numa horta solar, instalada no perímetro da empresa.

Produtos Amigos do Ambiente

Todos os nossos produtos são recicláveis e as matérias primas utilizadas na produção cumprem todos os requisitos ambientais mais restritos.

Práticas sustentáveis

Nas nossas operações diárias reduzimos a nossa pegada de carbono e complementamos a eficiência dos nossos processos. Ao longo dos anos, identificamos e implementamos sistemas de produção com o objectivo de reduzir, reutilizar e reciclar, desenvolvendo alternativas aos materiais, métodos e maquinaria que são a escolha ambientalmente mais responsável e sustentável.

Solar Power System

We believe on the quality and energy efficiency that give us a differentiating and environmentally friendly factor. One-fifth of the energy we consume originates from photovoltaic energy, produced on a solar garden, installed in the perimeter of the company.

Eco-Friendly Products

All our products are recyclable and the raw materials used in production meet all the most stringent environmental requirements.

Sustainable Practices

In our daily operations we reduce our carbon footprint and complement the efficiency of our processes. Over the years, we have identified and implemented systems to reduce, reuse and recycle, developing alternatives to materials, methods and machinery that are the most environmentally responsible and sustainable choice.
